

This June issue is the last before September. During July & August our club members will spread in all directions either close to or far from familiar grounds. This summer ISU congress in Lübeck (Germany) will be the Acme of amateur stereoscopy in our small world. It is definitely the best opportunity to meet with people from the five continents sharing our passion.

Meanwhile the Stereo club is following its course of step by step improvements : the Letter (Chief Editor Pierre Meindre) and the website (Webmaster François Lagarde) are at the forefront. New thematic groups should be created within the next few days.

“Le florilège” (our 2019 anthology/best of) is our major project for the next semester. It should be our key lever to reach a wider audience.

In this issue you will find the usual reports on regional meetings and photo fairs, extracted from a very busy agenda, plus our CE's intelligence briefs. We feature a long due article on Syria with pictures taken almost ten years ago, before the start of the first riots. Our friend Philippe Nicolet is definitely on the other side of our globe. He sent us beautiful shots from China and Cambodia. A taste of holidays ?

J.-Y. Gresser
