

## Editorial

Our daily lives are still disrupted by the pandemic. Needless to write our meetings are postponed until further notice. Nevertheless the board of delegates decided to keep the usual date for the Annual General Meeting, i.e. late March or early April.

At this time, health measures are unlikely to enable physical meetings. We will have to adapt and meet in accordance to legal rules.

The details will have to be defined by the board of delegates.

Without face-to-face interaction, it will be difficult to debate thoroughly on the Stereo Club future and its projects. We will try to do our best to enable members to present their questions or suggestions during the voting process.

The four executive members, the webmaster and the Letter chief editor give a lot of their time and energy to keep the Club alive. We must pay them a tribute for the work they accomplish and their dedication. It would be highly desirable for them to be able to get some relief, to share part of their workload and to prepare other members to take over in due time. This would give us more assurance about the Stereo Club future. Again I am calling for new volunteers to show up.

Four delegate positions are still vacant. Interested? Do not hesitate to send your application to the chairman:  
patrick.demaret.92@gmail.com

The future of the Club relies on you.

The chairman, Patrick Demaret
