

Dear Friends,

Our chairman wrote that a few of us were quite busy during July & August. The acme was undoubtedly the ISU congress in Lübeck, of which our chief editor, re-elected ISU secretary, provides an illustrated account with the contribution of our members who could attend.

The many pictures in this issue demonstrate clearly that our members went to many places in the wide World with wide-opened eyes.

Some of you may know, we are updating our website glossary. The article on orthostereoscopy is just an example of the heated debates which might take place during the process.

The interview with a (private) collector looks like the first of its kind. Please tell us your opinion about it and remember that your written and illustrated contributions to the Letter are always welcome.

JYG
