

## Editorial

*In these complicated times, the Parisian Club team is busy moving whatever remains in our old premises. This is difficult for several reasons, primarily because we do not have yet a location providing sufficient storage for everything we own. Thus we had to spread our equipment among various private places. To keep track we need a complete and detailed inventory which we could only perform in the past for our library and most part of the pictures which are stored in the Bry-sur-Marne museum.*

*Thierry Mercier (our secretary) added new tables to a specific section created by François Lagarde on our Website. I thank them, as well as the members who contributed.*

*The Lorem will move to new premises, smaller than the previous ones, and is ready to welcome us there.*

*The move should have completed by early November. The new lockdown may delay it.*

*In this period of health uncertainty, during which physical meetings are already banned for a month, it is necessary not to sever the link with members. This is why we are preparing to hold meetings by videoconference. We are hoping this will give you again the opportunity to interact with other members of the Stereo Club.*

*In any case, take care of yourself and close persons,*

*The chairman, Patrick Demaret*

## List of content - Articles, Illustrations (most of them in stereo)

*The page #'s is that of the original publication.*
