

Editorial-October 2023, A Month Full Of 3D

Dear Members,

In the October letter, we announced several 3D events which Stereo Club members attended:

- The Nouvelle-Aquitaine regional group met in Blanquefort on October 8;
- The screening session of the Ile de France group was held on September 27 in Charenton-Le-Pont;
- the 24th ISU Congress which took place in Tsukuba, Japan. For Jean-Yves Gresser and Pierre Meindre, it was a great success;
- the Gruissan Photo Festival, where our members Pascal Peyrot and Benoit Gaubert held their own exhibition;
- the Courant 3D festival in Angoulême, on which I report.

Wim Wenders' 3D movie "Anselm the Sound of Time" was released in theaters on October 18, you can read a technical assessment of the various screening conditions in several Parisian theaters and my personal opinion after the screening session in Angoulême.

During one of our Wednesday videoconferences JackDesBwa's Stereopix.net website was presented. As usual, future events are listed by Jean-Yves Gresser. At least, those we heard about. Please, do not hesitate to contact us about any announcement you could or would like to share with our members.

Bonne lecture !

Patrick Demaret, SCF Chairman
